

RESELLING SMART

KISHORE KILARU-19R01A0528

YENAMALA UMAMAHESH-19R01A0560

PROBLEM STATEMENT:

Travel is the movement of people between distant geographical locations. People may have some sudden works, sudden plan change during their travelling period which results to stop their present state of mindset i.e In such situations, they need to cancel their tickets. Now-a-days , there are only partial/zero refunds for tickets cancellation.

To overcome such problems, we improvised and developed some reselling features which are helpful.

SOLUTION:

To help people in such situations, Our helping hands definitely comes forward. we came here with an idea of 'RESELLING THE CANCELLED TICKETS'.

Working principle of our idea :

when a person cancel their tickets, that ticket should be uploaded in our feature(idea).

so, that it helps the peoples in two ways:

1. People who are in need with uploaded tickets can buy through this feature at "fixed rate".

2. People who cancelled their tickets have full refund through this feature.

FLOW CHART:

TICKET RATES:

The passenger who sell the ticket in our feature, First they need enter Ticket ID number. Then It display the ticket detials of passenger.

As per the above ticket detials, we display the price of a ticket which was set by the government.

Because of our feature, passenger gets full refund at anytime without any cuttings from total amount .

ADVANTAGES:

- Passengers never get in loss by selling their tickets through our feature.
- During festival seasons, our users can book their tickets through our feature.
- Time will be saved through our feature.

THANK
YOU
